

CLS ELECTRICAL

INDUSTRIAL | COMMERCIAL | RESIDENTIAL

WE SPECIALIZE IN
**INDUSTRIAL, COMMERCIAL
& RESIDENTIAL ELECTRICAL
INSTALLATIONS**

OUR COMMITMENT

CLS Electrical specialises in industrial, commercial and residential installations. We are locally owned and operate with expertise in all electrical fields including:

Electrical management and supervision which involves project management of the entire electrical process including planning, organising, controlling and monitoring the project schedule while adhering to strict quality and safety standards.

Supply of material which is not supplied by the client and which forms a substantial part of the installation. In addition, CLS Electrical offers a purchasing and inspection service to the client in respect of client procurement or engineer's specification.

Installation which is the physical erection of the electrical MV and LV systems associated with industrial plants, commercial and residential projects. CLS Electrical manages both skilled and unskilled labour according to the sequential installation plan.

Calibration and commissioning to ensure optimal operation of the projects once the erection process is complete. Sophisticated and expensive test and calibration equipment is needed to execute this function which can only be operated by highly specialist technicians.

Maintenance to ensure full operational efficiency after completion of the project.

We hope the information that you find in this profile will convince you that CLS Electrical is willing and able to support you and your electrical requirements.

Luke Naidoo
Managing Director - Head of Operations

ABOUT US

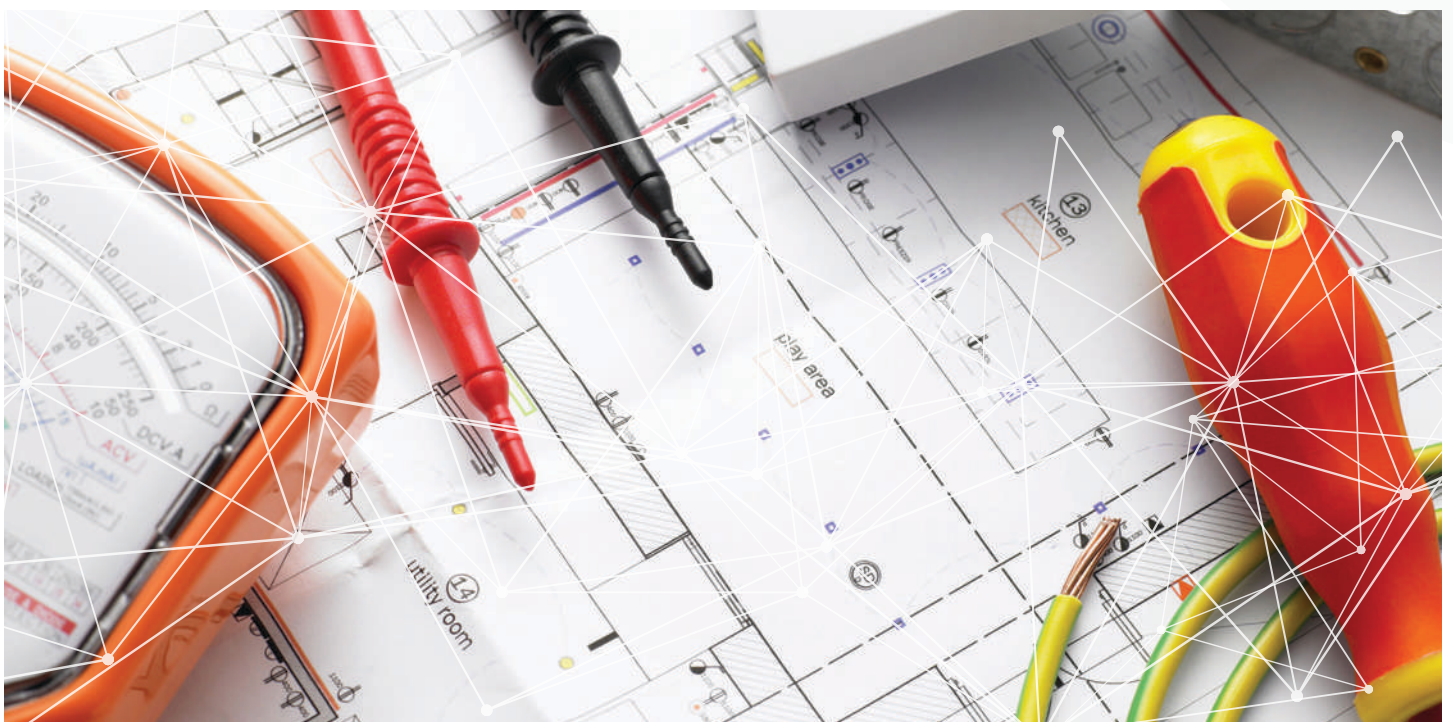

CLS Electrical is a multi-disciplinary, 100% BEE owned company based in Gauteng and KwaZulu-Natal.

CLS Electrical interacts, networks and engages in joint ventures with other organisations and companies with a view to skills transfer and to form business linkages with complementary professionals on multi-disciplinary projects.

CLS Electrical professes good management, dedicated leadership, integrity, efficiency and the use of appropriate and cutting-edge technology to yield the most cost effective results in all assignments.

CLS has over the years built a credible and transparent relationship with Major players in the Industry, to name a few WBHO, TRYIS Construction, Tri-star Construction.

We pride ourselves on our extensive knowledge of Project Start to Project finish, monitoring and tracking of lead time frames and keeping within budget.

OUR TEAM

LUKE NAIDOO - Managing Director (Head of Operations)

Our Mr Luke Naidoo is a professional Project Manager, who has 20 years of experience in the Electrical and project management sector. He himself has an Electrical Diploma (N3), Wiremans licence and Electrical Engineering from Westcol Campus. He also has completed major projects in Gauteng, namely The All Africa Games Village in Tsutsumani Alexandra Group 5, worked on the World cup Stadiums during the World cup 2010, and various housing and Social housing projects in Gauteng and Durban.

CREESEN ARCHARY - Financial Director (Managing Member)

Creesen Archary has extensive background and knowledge in the Finance Sector. He has been a consultant for many years and serviced clients i.e Robertson Spices; various beverage and FMCG plants and developed financial models for production plants. He takes care of all the Financial aspects of CLS Electrical business from pricing the BOQ and financial management of the projects, budgets and cashflows.

THOMAS MAKWELA - Senior Contracts Director (HV & LV Experience)

Tom has everyone knows him to be and is no stranger to the Industry, he has about 25 years of experience in the Electrical sector. He also has completed major projects with us and is still persevering with many more. Tom successfully completed the recent Botshabelo Mall situated in Bloemfontein with an electrical contract value of R32 Million, The Ford Motor Company in Silverton Pretoria, which CLS Electrical won the Blue IQ initiative award and has been placed in the Construction Review Magazine 2011.

Providing the most
cost effective
solutions

**Powering your success
through service excellence**

SCOPE OF SERVICES

CLS Electrical was established in order to provide project management and electrical services. We have extensive experience within our field and are committed to delivering an unsurpassed quality of service and post commissioning care. We accomplish this through:

- ✓ Open and honest communication with the client
- ✓ Providing the most cost effective solutions
- ✓ Utilising only SABS approved spares and products
- ✓ Satisfying the business needs of its clients through Professional services

We are able to handle projects on a turnkey basis as part of a team that has been involved extensively in electrical projects since 1986, originally trading as CG Electrical the organisation has undergone strategic alignment to meet current employment equity and BEE criteria, all key personnel were retained and still form part of the highly professional team.

We have grown in leaps and bounds since, we have made relevant changes to adapt to current demanding and challenging electrical sectors. We have teams that are available to service the maintenance sector, teams to handle the LV/MV distribution sector, the teams to do the full on Electrical installations in Building works both Commercial and Industrial.

We have over the years become some what Mall experts completing the Botshabelo Mall in Bloemfontein Pick & Pay; Woolworths; Shoprite Checkers etc and now in Sandton City with various shops and revamps to the Food court, i.e Spur Milky Lane; Dischem; Hamelys; Pick & Pay Clothing; Exclusive Books; Superdry; Tiger Wheel & Tyre parking coverage.
